Data Analyst

Data Analyst with 4+ years of experience in transforming raw data into actionable insights. S a strong foundation in mechanical engineering. Adept at building dashboards, optimizing data intelligence solutions that drive efficiency and growth.

PROFESSIONAL EXPERIENCE

Company- TCS

Data Analyst 03/2024 - Present

Project: **Sales Performance Dashboard (Power BI)**
Built an interactive dashboard to track regional sales trends.

- Designed and maintained Power BI dashboards to visualize KPIs and business metrics.
- Wrote complex SQL queries to extract, clean, and analyze large datasets.
- Automated reporting workflows using Python scripts, reducing manual effort.
- Performed **data validation** and **reconciliation** to ensure 100% accuracy.
- Partnered with stakeholders to translate business requirements into data-driven solutions.
- Delivered insights that improved operational efficiency and supported strategic decisions.

Project: **Automated Data Pipeline (Python + SQL)**
Developed Python scripts integrated with SQL queries to streamline ETL processes, cutting reporting time by 30%. 06/2022 – 02/2024

- Developed an **automated ETL data pipeline using Python and SQL** to extract, transform, and load data from multiple sources into a centralized database.
- Implemented **data cleaning and transformation using Python (Pandas)** to handle missing values, normalize formats, and prepare data for analysis.
- Designed **optimized SQL queries** to aggregate and process large datasets efficiently.
- Automated pipeline execution using **scheduled scripts (Cron/Airflow)** to ensure timely data updates.
- Reduced **manual reporting effort and data processing time by 30%** through automation and optimized workflows.
- Generated structured datasets that supported **faster reporting and data-driven decision making**.
